

# Breathe Bike Rodeo

Breathe California Sacramento Region is proposing a partnership with The City of West Sacramento to host the first annual Breathe Bike Rodeo on April 30, 2022. This will be a family-friendly event with short bicycling routes, bicycling professionals, and safety experts. It will promote the health benefits of bicycling along with bicycling safety.

The proposed 1-mile route will take riders down Riverfront Drive, Mill Street, up River Walk Trail, and back to the starting point on Ballpark Dr.

West Sacramento has been steadily investing in bicycle infrastructure and encouraging communities to commit to

bicycling as a sustainable and healthy transportation alternative to driving. Figure 2 shows that West Sacramento has a bike score of 62 out of 100. The Sacramento region was recently praised for having the second-highest number of bike-share trips in the world. Your sponsorship of this event will

educate and empower youth to think differently about clean and active transportation and become confident and safe bicycle riders. coupled with West Sacramento's Bicycle infrastructure investments, more trips by bicycle will help improve the region's air quality.
